

5 Things You Should Do Year Round for IMPROVED PERFORMANCE

SEEK OUT FEEDBACK

Don't wait for the formal review process. Ask how you are doing and actively listen to the feedback that is given.

ASK WHAT YOU CAN DO DIFFERENTLY

Don't just ask for feedback but press on to find out what specific actions you can take to improve.

TRY NEW THINGS

Be open to sharing ideas and saying "yes" to others ideas. When you support suggestions from team members, they will likely support yours as well.

VOLUNTEER

Be a team player. Actively look for opportunities to help others when you have the time to do so.

MEASURE YOUR PROGRESS

Once you know what you can do differently, track your progress towards improvement. Checking in along the way is also important for success.
